

THE NEW NETZER SIDDIR

Mishkan Netzer

נצ"ר

After many hours of hard work and creativity from our very own madrichim, Netzer Australia is very pleased to present our brand new Siddur! Mishkan Netzer is designed to be a compatible youth version to Mishkan T'filah (complete with corresponding page numbers).

The Siddur was published by the CCAR Press, and we are excited to offer kehilot the opportunity to purchase copies for their congregants.

Netzer uses these Siddurim throughout the year and on camp; they are at the heart of our movement's Progressive Jewish practice. Mishkan Netzer is perfect for use with younger congregants and a great tool to foster the connection between each congregation and Netzer.
